

## STOLID

Silent stolid creatures  
Destitute of feelings  
Entirely immovable  
Stubbornly rigid  
Unbending and obdurate  
Vacant-eyed lunatics  
Spaced out, blank stares  
Forlorn, isolated

0'59" – 2'34"

The sounds of the nurses  
And Seroquel-induced nightmares  
Gasping for air  
Then sweet sleep again  
Suicidal ideation  
Screaming and punching the walls  
Sedating and restraining  
All stolid residents

2'34" – 4'40"

Breaking down and sobbing  
And racing to night meds  
A big happy family  
Lights out  
Groaning in disdain  
Medicated slumber  
Life is good  
For all stolid wrecks

5'43" – 6'49"
